

Art home learning

Key Stage 1

Our art focus for the next two weeks will be drawing

You will explore drawing different shaped lines and investigate different thicknesses of lines

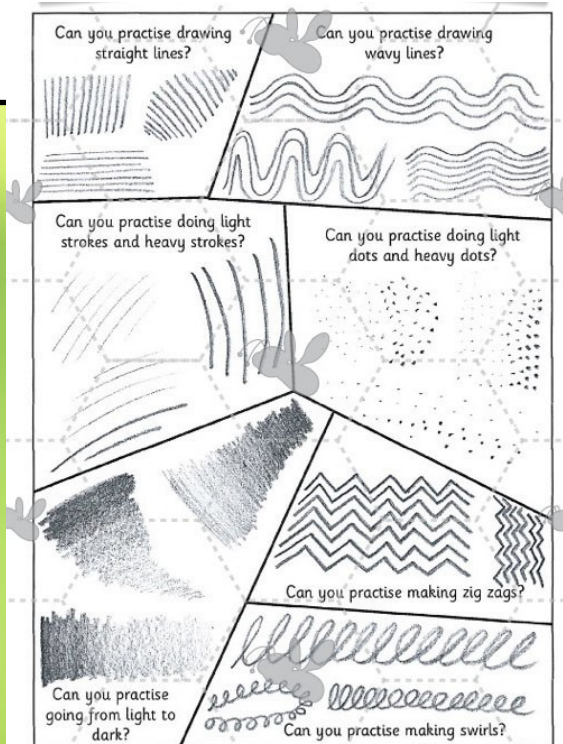

Please take a photograph of your work and post it on twitter. We would love to see them.

Week 5

One of the most important things to think about when you are drawing is that your pencil is capable of much more than a solid straight line.

You can get a whole range of lines depending on how hard you press on the pencil and the direction you move it in.

Practise drawing different shape lines and experiment with pressing harder and lighter to create different thicknesses.

Week 6

Hair Days

We are all going to come out of this with more 'interesting' hair-dos!

Get a photo of yourself or draw yourself and add a Zen doodle hair-do. Use the skills you have learnt and use different shaped lines and different thicknesses You can go mad with colours too. Here are some already done.
