

Design & Technology

What is D&T?

Design and Technology helps to develop children's skills and knowledge in design, materials, structures, mechanisms and electrical control.

They are encouraged to be creative and innovative, and are actively encouraged to think about important issues such as sustainability and enterprise.

Whilst school is closed, we would love the children to take part in a D&T Whole School Challenge to get designing, creating and innovating!

There will be a different theme each week, and we would like you to take photos of your creations and Tweet them @witton_walkce or on our Facebook Page @wittonchurchwalk

This week, the week beginning the 6th July our theme is BANG THE TRASH! We would like you to create your very own musical instruments using trash/rubbish/ recycled items that you can find, be as imaginative as you can and maybe form a band or orchestra with your family or via media with your friends. Here is a link that could help
